Education

Watertown High School
H.S. Diploma
January 2008

Full Stack Web Development and Software Development Bootcamp (UW-Madison in partnership with EdX)
In progress (certification upon completion)
January 2025

Awards & acknowledgments

Consistent receiving of positive feedback with efforts, helping, and in speed of assembly tasks.

Recognized for quality customer service skills while at BP and Shell. Receiving numerous compliments in specific from customers both regular and non-regular.

Experience

Customer Service Representative
Shell & BP | Beaver Dam, WI
March 2018 – March 2023

- Provided exemplary service to guests. Assisting with their needs and requests.
- Maintained station cleanliness, open and closing of store, bookkeeping, ordering, and stocking.

Robot Assembly
Whisker | Juneau, WI
March 2023 - Current

- Assembly of LR4 model robots on various stations
- Assistance with pack-off, material handling, and QC testing
- Demonstrated attention to detail and efficiency in assembling and quality testing of robots.
- Demonstrated high effort and help teamwork in making sure the lines continue to run smoothly.

Direct Skillset and Knowledge

HTML | CSS (including usage of bootstrap framework) | JavaScript | Node.JS | TypeScript | Express.JS | Vite | React | Python | GitHub | VSCode | GitHub Copilot | SQL and NO SQL | MERN | CI/CD | Deployment

Indirect Skillset

Proficient Typing Speed(70 wpm)

Team-Player, always making sure the team as a whole is working efficiently and completing the tasks that are necessary.

Fast learner, the boot camp requiring a working knowledge of materials within a week of beginning to teach them. So one can be ensured that even if I may not have experience with a given language, I will have a working understanding within a week or two that will allow for working on intermediate to even advanced level tasks.

Organization, Structuring, and accomplishing tasks. For group projects I'm typically the one who takes lead and directs/delegates tasks to various group members. This helps maintain efficiency and ensures that group members are staying on task and completing the necessary tasks within the required time frame.

Problem Solving, a good part of the boot camp being focused on equipping students with a foundational understanding of various elements of development, so that when a novel problem is encountered even if one does not necessarily understand the required solution, they are able to find the solution themselves and implement it.
